Respondent Witness Schedule

IICRA Case No. 23/2026 | ICIEC v. Eskadenia Software

First round factual witness evidence | 9 November 2026

Submitted pursuant to paragraph 74(b) of Procedural Order No. 1 dated 26 September 2026. References below are to the Response to RFA No. 23/2026, using section headings and page numbers to distinguish its separate numbering sequences.

RW-1 Nael Salah

Required item	Witness evidence
Issues addressed	Pre-contract engagement with ICIEC and discussions with its CEO; development of the Credit Insurance product before contracting; separation of the Licence and Services Agreements; management oversight of implementation and changing scope; management communications on Go-Live, resources and additional effort.
Relevant pleading passages	Preliminary Defence 4.1-4.2 (pp. 5-7); section 8, Response to Article (2) (p. 12), Articles (3)-(4) (pp. 12-15), Articles (5)-(7) (pp. 15-20); Response to Paragraph (17) (pp. 34-36), Paragraph (18) (pp. 36-38) and the separately headed Section 2(1) response (pp. 38-40); Response to Relief Sought Paragraphs (20)-(23) (pp. 41-43).
Reason the evidence is not duplicative	Mr Salah gives the management and commercial account, including conversations with ICIEC senior management and the circumstances of entering the contractual relationship. Ms Al-Mobaideen addresses project administration and implementation records. Where the chronology overlaps, the evidence addresses the same event from these different roles rather than duplicating the project manager's operational account.

RW-2 Laisan Al-Mobaideen

Required item	Witness evidence
Issues addressed	Project initiation and charter; schedules and scope sign-off; installation and provisional acceptance; training and UAT status; data migration coordination; change requests and verification; progress reporting; April 2025 technical discussions; reported restrictions on access to ICIEC environments.
Relevant pleading passages	Preliminary Defence 4.1-4.2 (pp. 5-7); section 8, Responses to Articles (3)-(7) (pp. 12-20) and Article (9) (pp. 22-24); Responses to Paragraphs (14)-(18) (pp. 29-38) and the separately headed Section 2(1) response (pp. 38-40); Response to Relief Sought Paragraphs (20)-(23) (pp. 41-43).
Reason the evidence is not duplicative	Ms Al-Mobaideen gives the account of the project manager responsible for planning, coordination, records and reporting. Her evidence identifies operational milestones, testing status and scope-management events. Mr Salah supplies the negotiations and senior-management account. Her evidence supports the implementation record without repeating his personal negotiations with ICIEC management.

This schedule describes the factual subjects of the statements and is filed in accordance with Section XIII of Procedural Order No. 1, particularly paragraph 74(b). Filing a statement does not itself constitute permission to call the witness for oral examination.
