## ESKADENIA Software

ESKADENIA Software is a global IT leader with more than 20 years of transcendence in creating best-in-class business systems that accelerate digital transformation. ESKADENIA is specialized in providing high-quality software with the scalability and flexibility to support progressive business growth. ESKADENIA Software is a customer-focused company that aids and promotes companies via the use of highly successful IT strategies, solutions, and technologies.

ESKADENIA Software, with around 300 professionals, serves customers in over 25 countries in the areas of Telecom, Insurance, Education, Healthcare, Internet, Enterprise, and Cloud systems. As a CMMI 5 certification holder and a three-time MENA award winner, the company strives for sustainable operational excellence.

ESKADENIA® Software has offices in Jordan, UAE, and Sweden, along with customers and channel partners in Asia, Europe, and Africa. Housing around 300 professionals with diverse industry backgrounds, around 85% of whom actively work in Research and Development, the IT powerhouse is known to be a central digitalization pioneer in the markets it serves.

At ESKADENIA Software, we recognize that our competitive value is not only in guiding our customers to survival, but also in assisting them to attain and sustain market leadership. As a result, we strive to create new, effective, and differentiated software solutions in collaboration with them.
